

PLEASE watch the following video that talks about this from people who are fighting on the front lines on our behalf. They need OUR help to get the job done. We are the power and force to make a difference.

Here is what we can do! Without secure elections, we have no voice.

If you feel that our elections are not secure and want to know the truth, here is what we need to do. Our voices in mass numbers will make a difference. When they hear from thousands of people, they will take notice.

Do a search for your state senate and congressional representatives, and those in the capital. Email, phone and address are public information.

Make note of those who represent you with their email, phone number and address. Each has districts, so make sure the person represents your district. That's 5 people — your state congress and senate person and the federal government Congressman for your district and both Senators. Put their email and phone number in your phone. Several times a day [maybe when you go potty], email, call or text them. Then send a letter as often as you can to their address.

Search for Congress and Senate representatives of your state. If you live in Michigan, you can go to:

<https://www.govtrack.us/congress/members/MI>

A simple text will do. Be polite, but persistent.

Sample text:

- From a concerned resident of your district. I believe our election process has been corrupted and an audit would prove it legitimate or not. Please save the ballots of proof and conduct an audit to verify the results. Thank you.

You can expand on this with your letter or email. Adjust as you wish. Note I did not say 'citizen'. They have changed the meaning to be 'subject of the state or district'. We are not their subjects. They work for us. Pass on this information to everyone you know who feel the same.
